## **Sunshine Biopharma Signs an Agreement for Distribution of Essential-9™ in Asia and the Far East**

Montreal, Quebec, Canada – (ACCESSWIRE) – Sunshine Biopharma, Inc. (OTC Pink: “SBFM”) today announced that it has signed an agreement with JOAH International Pte., Ltd., headquartered in Singapore for distribution of Essential-9™ in Asia and the Far East. Sunshine Biopharma’s Essential-9™ is a nutritional supplement tablet comprised of a balanced formula of the 9 essential amino acids that the human body cannot make. Essential-9™ is authorized for marketing by Health Canada under NPN 80089663.

Essential Amino Acids are 9 out of the 20 amino acids required for protein synthesis. Proteins are involved in all body functions – From the musculature and immune system to hormones and neurotransmitters. Like vitamins, Essential Amino Acids cannot be made by the human body and must be obtained through diet. Deficiency in one or more of the 9 Essential Amino Acids can lead to loss of muscle mass, chronic fatigue, weight gain, and weakened immune system. Sunshine Biopharma’s Essential-9™ provides a balanced formula of all 9 Essential Amino Acids in free-form, ready to be absorbed. Essential-9™ is suitable for everyone: Vegans, Seniors, Dieters, Athletes, and everyone looking to increase their health. In North America, Essential-9™ is available on Amazon.com and Amazon.ca.

“Offering accessibility to Essential-9™ in this important economic region is a major milestone in our marketing program,” said Camille Sebaaly, Chief Financial Officer of Sunshine Biopharma.

### **About Sunshine Biopharma**

Sunshine Biopharma is a pharmaceutical company focused on the research, development, and commercialization of oncology and antiviral drugs. In addition, Sunshine Biopharma is engaged in the development and commercialization of science-based nutritional supplements. In addition, to working with the University of Georgia on the development of a treatment for COVID-19, Sunshine Biopharma is engaged in the development Adva-27a, a unique anticancer compound. Tests conducted to date have demonstrated the effectiveness of Adva-27a at destroying Multidrug Resistant Cancer Cells, including Pancreatic Cancer cells, Small-Cell Lung Cancer cells, Breast Cancer cells, and Uterine Sarcoma cells. Clinical trials for Pancreatic Cancer indication are planned to be conducted at McGill University’s Jewish General Hospital in Montreal, Canada. Sunshine Biopharma is owner of all patents and intellectual property pertaining to the COVID-19 treatment and Adva-27a.

## **Safe Harbor Forward-Looking Statements**

*This press release may contain forward looking statements which are based on current expectations, forecasts, and assumptions that involve risks as well as uncertainties that could cause actual outcomes and results to differ materially from those anticipated or expected, including statements related to the amount and timing of expected revenues statements related to our financial performance, expected income, distributions, and future growth for upcoming quarterly and annual periods. These risks and uncertainties are further defined in filings and reports by the Company with the U.S. Securities and Exchange Commission (SEC). Actual results and the timing of certain events could differ materially from those projected in or contemplated by the forward-looking statements due to a number of factors detailed from time to time in our filings with the SEC. Among other matters, the Company may not be able to sustain growth or achieve profitability based upon many factors including but not limited to general stock market conditions. Reference is hereby made to cautionary statements set forth in the Company's most recent SEC filings. We have incurred and will continue to incur significant expenses in our expansion of our existing as well as new service lines noting there is no assurance that we will generate enough revenues to offset those costs in both the near and long term. Additional service offerings may expose us to additional legal and regulatory costs and unknown exposure(s) based upon the various geopolitical locations we will be providing services in, the impact of which cannot be predicted at this time.*
